

ANCHAL DWIVEDI

Backend .NET Developer | ASP.NET Core | REST APIs | PostgreSQL

✉ anchald146@gmail.com 📞 +91 7985118026 📍 India

Professional Summary

Backend .NET Developer with 3 years of experience in designing and developing scalable, secure RESTful APIs using ASP.NET Core, .NET 6/7/8, Entity Framework Core, and PostgreSQL. Strong experience in JWT-based authentication, role-based access control, database optimization, and clean architecture. Worked on large-scale government and enterprise applications with real-time data processing and reporting. Immediate joiner, actively seeking Backend / ASP.NET Core Developer roles.

Professional Experience

ASP.NET Developer

February 2023 – January 2026

Supply Valid Pvt.Ltd.

- Designed and developed RESTful Web APIs using ASP.NET Core for government and enterprise supply-chain systems
- Implemented JWT authentication and role-based authorization (RBAC) to secure all API endpoints
- Developed backend modules using Entity Framework Core with optimized database schemas
- Improved API performance by ~40% through SQL query optimization and efficient data handling
- Applied Repository Pattern, Dependency Injection, and SOLID principles for maintainable and scalable code
- Integrated APIs with multiple user roles (Admin, Company, Branch, Federation, FPC, Viewer)
- Created detailed Swagger/OpenAPI documentation, enabling smooth frontend-backend integration
- Participated in code reviews, debugging, and performance tuning activities

Key Projects

Onion2025 – Government of India (Department of Consumer Affairs)

ASP.NET Core | Web API | PostgreSQL | JWT | EF Core| Linq |

2023 - 2025

- Developed a state-wide onion distribution and inspection monitoring system
- Enabled real-time stock tracking, inspection reporting, and quality monitoring
- Built automated farmer payment processing, ensuring transparency in the supply chain
- Implemented reporting and analytics to reduce spoilage and improve distribution efficiency
- System actively used by government officials and field inspectors

NHRDF SEED – Government Seed Distribution System

ASP.NET Core | Web API | EF Core| Linq | PostgreSQL

2025

- Architected backend APIs for farmer registration and seed distribution management
- Implemented seed tracking workflows and plant return verification
- Developed real-time dashboards and analytics for government monitoring
- Automated subsidy verification and reporting processes

POS System – Multi-Branch Café Management

ASP.NET Core | Web API | EF Core | Linq | PostgreSQL

2025

- Built a multi-branch POS system with customer profiles and mobile-linked ordering
- Developed dynamic menu management with real-time pricing and inventory tracking
- Implemented role-based access control for billing and admin operations
- Improved operational efficiency through backend automation

Technical Skills

Backend Technologies

- ✓ ASP.NET Core
- ✓ .NET 6 / 7 / 8
- ✓ RESTful Web APIs
- ✓ Entity Framework Core
- ✓ Linq

Security

- ✓ JWT Authentication
- ✓ Role-Based Access Control (RBAC)

Database

- ✓ SQL Server
- ✓ PostgreSQL
- ✓ SQL (T-SQL)
- ✓ Query Optimization

Architecture & Patterns

- ✓ Repository Pattern
- ✓ Dependency Injection
- ✓ SOLID Principles
- ✓ Clean Architecture

Tools

- ✓ Visual Studio
- ✓ Git/GitHub
- ✓ Swagger / OpenAPI
- ✓ Postman

Methodologies

- ✓ Code Reviews
- ✓ Query Optimization
- ✓ Performance Tuning

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

LDC Institute of Technical Studies

Graduated: 2022 | CGPA: 8.5/10
